VISION SAUNAS

General arrangement | Floor plan and transverse section

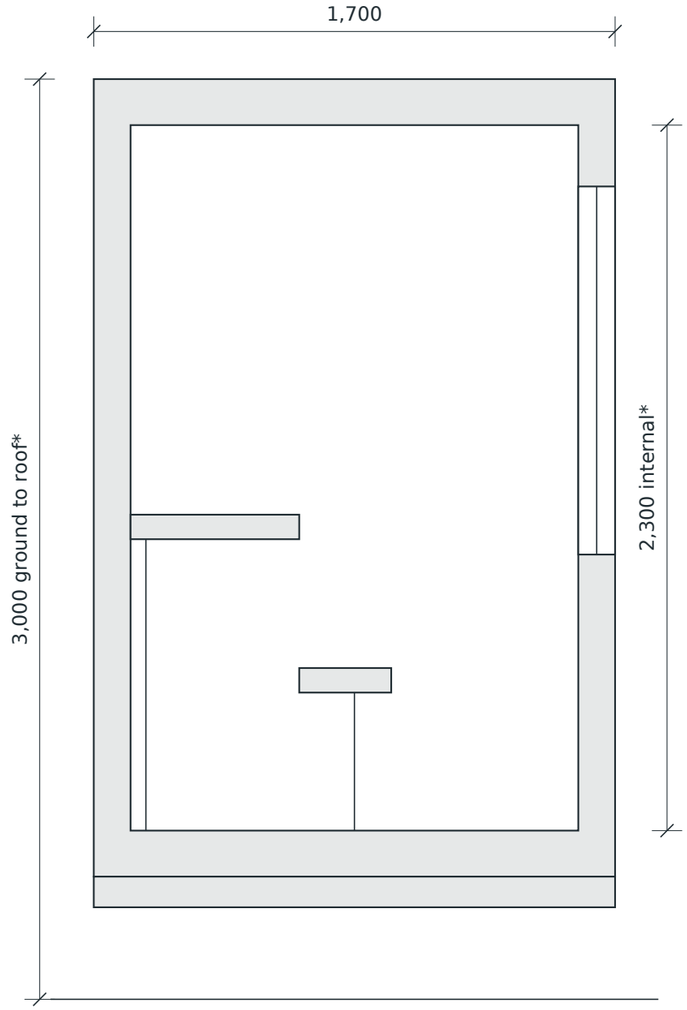

PRELIMINARY / FOR REVIEW

Photo-based draft - not a measured survey

01 FLOOR PLAN

Entrance below; tow end above.

02 SECTION A-A

Indicative build-up and bench positions only.

SCALE BAR 1:20

DRAWING BASIS

External width and length supplied by client.
3,000 height assumed ground to roof;
flue projects above and is excluded.

* Provisional / assumed dimensions:
Floor level: 550 above ground.
Wall thickness: 120.
Door opening: 750 x 2,000.
Window: 1,200 x 1,200.
Upper bench: 550 deep; 950 above floor.
Lower step/bench: 300 deep; 450 high.

Interior arrangement is a proposed layout, not confirmed from the single photograph. Heater footprint is indicative; clearances, guards and ventilation are not designed.

Trailer, axle, towbar and flue dimensions require measurement. Width excludes any projecting wheels or fittings.

MOBILE SAUNA | 1,700 W x 3,000 L x 3,000 H mm

26 OCT 2026 | Revision P01 | All dimensions in mm | Print A3 at 100%

VS-SA-01 | 1 / 3 | Scale 1:20 at A3

Verify dimensions before construction or submission.

VISION SAUNAS

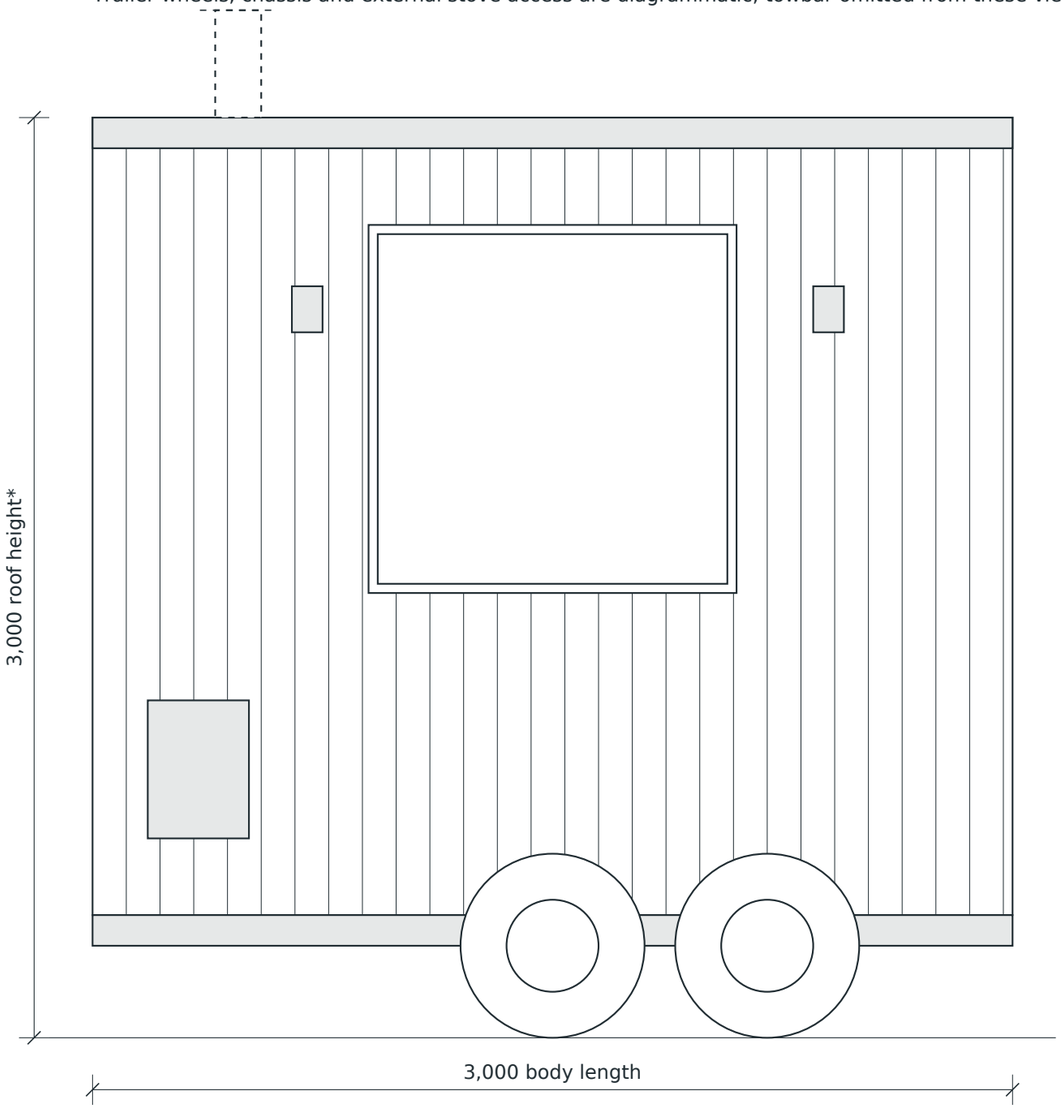

External elevations | Window side and opposite side

PRELIMINARY / FOR REVIEW

Photo-based draft - not a measured survey

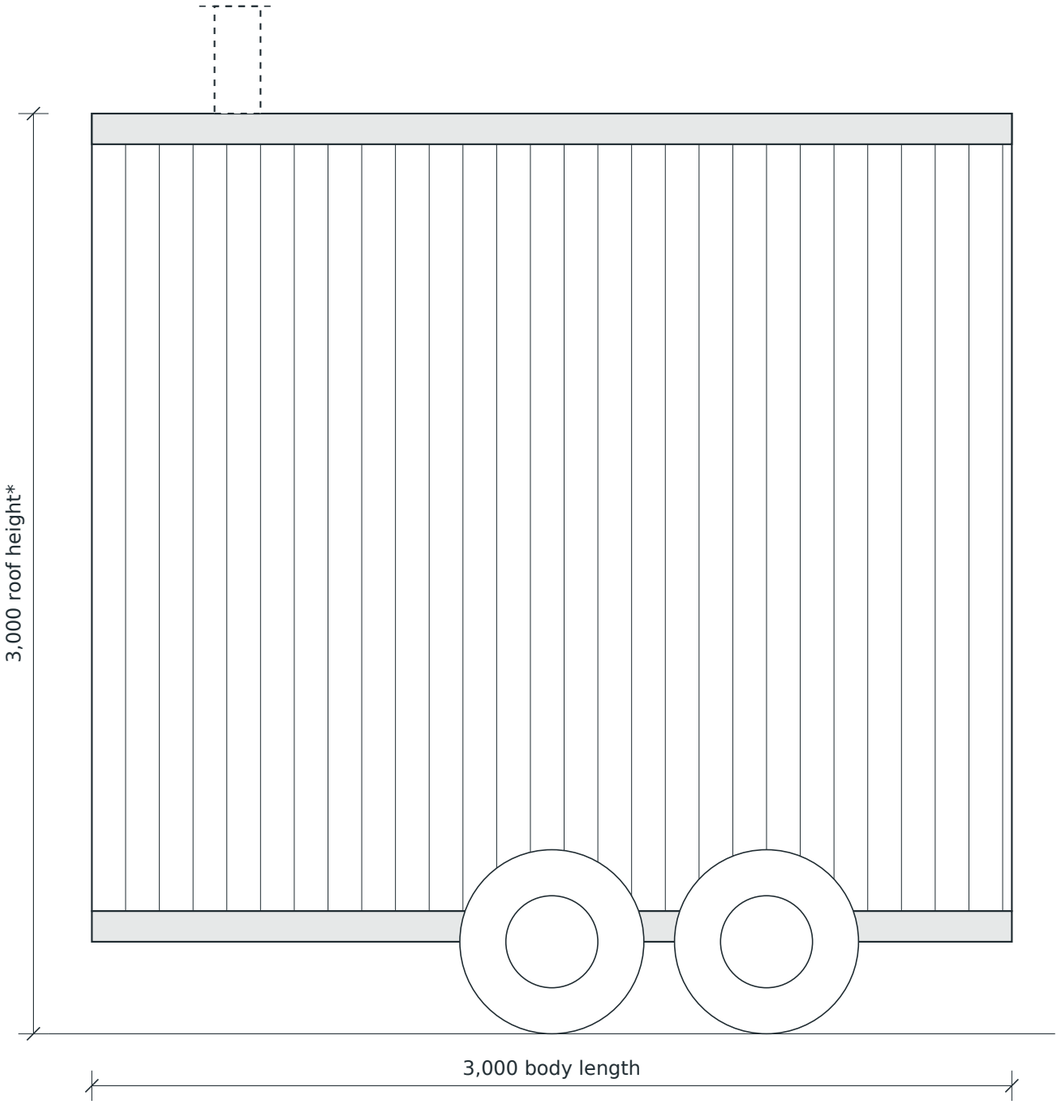

Flue dashed: approximate position and projection only. Total height including flue is unconfirmed.

Trailer wheels, chassis and external stove access are diagrammatic; towbar omitted from these views.

03 WINDOW-SIDE ELEVATION

Black vertical timber cladding; dark roof fascia.

04 OPPOSITE-SIDE ELEVATION

Black vertical timber cladding; dark roof fascia.

Unseen elevation assumed blank; verify on site.

VISION SAUNAS

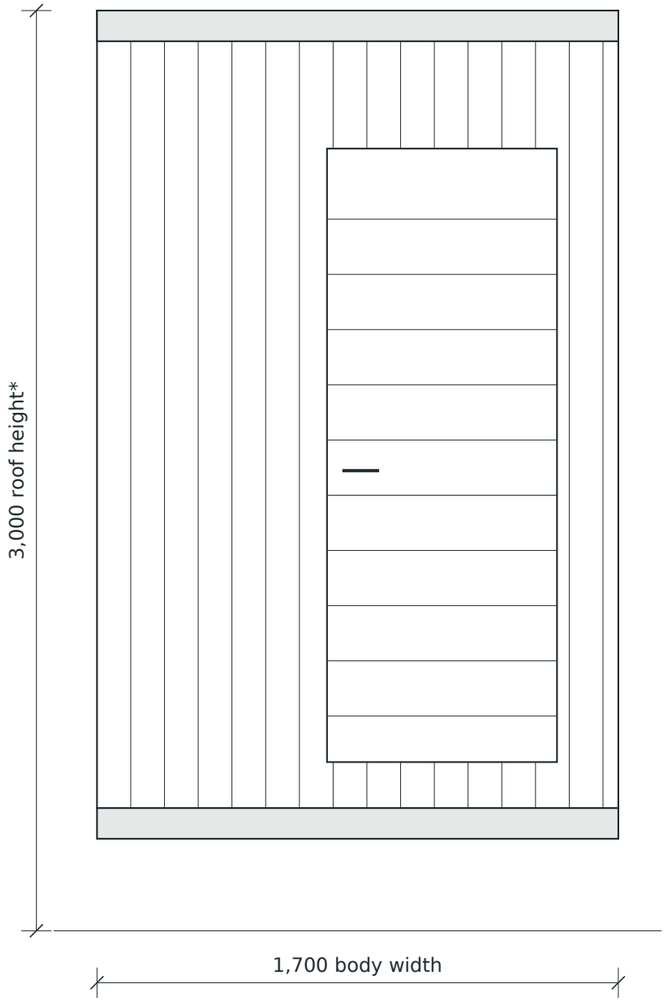

External elevations | Entrance end and tow end

PRELIMINARY / FOR REVIEW

Photo-based draft - not a measured survey

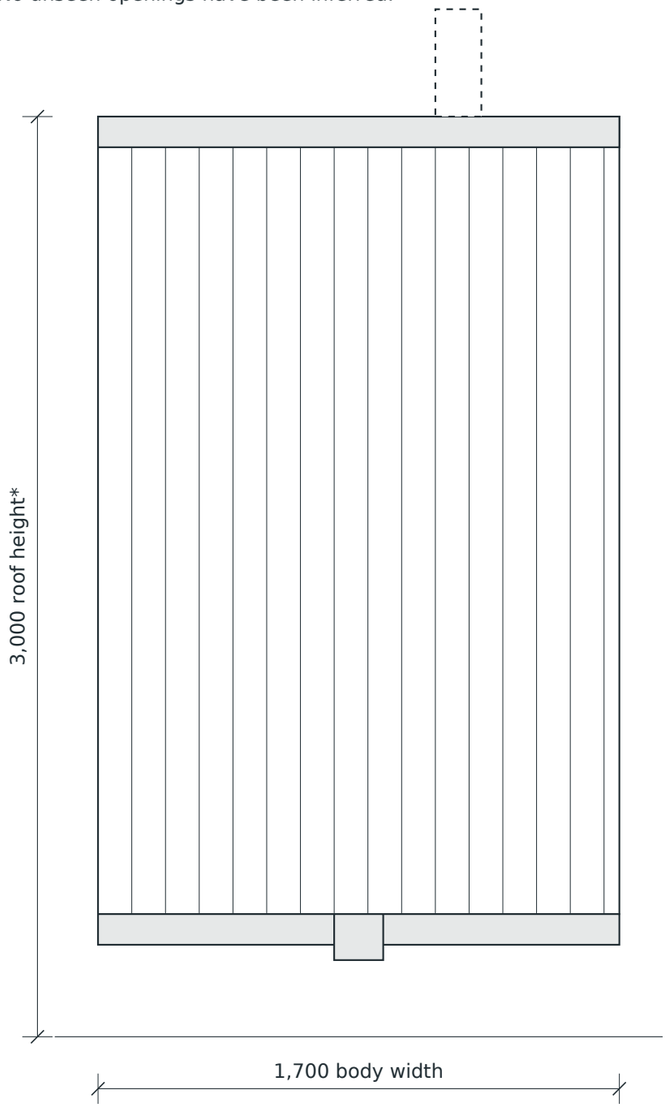

Appearance interpreted from the supplied photo: black vertical cladding, dark fascia, timber entrance door and square side window.

Roof drawn level; actual pitch and drainage arrangement to be confirmed. No unseen openings have been inferred.

05 ENTRANCE-END ELEVATION

Door shown closed.

06 TOW-END ELEVATION

Unseen face assumed blank; verify.

REFERENCE PHOTOGRAPH / NOT TO SCALE

CONFIRM BEFORE FINAL ISSUE

1. Is 3 m ground-to-roof or body height?
2. Actual floor and roof levels.
3. Door/window sizes and offsets.
4. Interior benches and heater location.
5. Trailer and flue overall dimensions.

This is a preliminary drawing set.

Not a structural, trailer or fire-safety design.

No site location or orientation is established.

Confirm details before planning submission.
