Subject: RE: Sunninghill Construction - Fairfield Cottages, Cowfold, RH13 8BL - Refuse & Recycling Bins

Good morning Glen,

Please accept our apologies, it looks like this email may have been missed in our inbox.

As these properties are individual houses they would be entitled to individual bins each, and they would need a 140L green-top refuse bins and a 240L blue-top recycling bin each. We do have a multibuy for these two bin types, so it would be £85 per property, totalling £680 for all 8 properties, including delivery.

We can send this invoice to your company if you accept the order, and once the invoice has been paid in full we can deliver the bins to the properties ready for the resident's use.

Please also advise us when you expect these properties to complete, as we are rolling out our new food waste service in the coming months and these properties may need to be included in our roll out process.

Kind regards,

Rebecca Ward

Recycling and Waste Administrator
