**Subject:** DISC/24/0096 - Leonardslee Gardens - further comments

Dear Matthew,

Further to our formal comments on this discharge of application dated 18.06.24 we have further comments to make.

1. Due to subsequent information from representatives we request further information in the noise management plan (NMP).
2. We would like more clarity in the noise management plan on the operational side of events, in particular how the late events are managed, how the compound is used during these late events etc.
3. We would also be grateful for further detail on the car park associated with the compound, how and when it is used etc.

We understand that the condition 7 is yet to be formally discharged. We appreciate that this is contrary to our previous comments, however in light of recent information from representatives we recommend that the condition is not discharged until a revised NMP has been provided to the satisfaction of the LPA.

Kind regards

Kevin
