Please state the condition number(s) to which this application relates

Condition number(s)

Condition 6. No development shall commence until a Drainage Strategy detailing the proposed means of foul water disposal and a detailed surface water drainage scheme (including finalised surface water drainage designs and calculations) has been submitted to and approved in writing by the Local Planning Authority. The submitted details should include a Surface Water Drainage Statement (based on sustainable drainage principles and an assessment of the hydrological and hydrogeological context of the development). The drainage designs shall show full coordination with a detailed landscape scheme and should demonstrate that the surface water runoff generated up to and including the 100 year, plus climate change, critical storm will not exceed the run-off from the current site following the corresponding rainfall event. The drainage scheme shall subsequently be implemented prior to first occupation in accordance with the approved details and thereafter retained as such.

Condition 9: No site levelling works shall take place until full details of the existing and final land levels and finished floor levels (in relation to nearby datum points) have been submitted to and approved by the Local Planning Authority in writing. The details shall include the proposed grading of land areas including the levels and contours to be formed, showing the relationship of proposed land levels to existing vegetation and surrounding landform. The site levelling works shall be completed in accordance with the approved details prior to the commencement of development of any building within the site.
