Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking - Loss of General Amenity
Comments:	Since this application was submitted, Horsham Football Club have been promoted to the National League South. This will lead to even larger crowds than hitherto has been the case, some coming from distant places. The football club rely on the Park and Ride facility owned by WSCC to accommodate their supporters and visitors on match days. Since the club was established a number of parking places

were lost when WSCC decided to relocate a fleet of their vehicles from Broadbridge Heath.

It seems a great pity that the HDC recycling centre now want to take up another 25 parking places. Surely their requirement could be met by expanding their operation into the vacant area that appears to exist to the North of their own site (according to Google Maps), rather than into the Park and Ride.

The Transport Statement recognises the problem and points to the regular bus service that operates from the town centre. However this can be oversubscribed on match days and can be difficult for those with limited mobility or with several young children who rely on parking at the Park and Ride.

I would appreciate the points I have raised being given due consideration.

Kind regards
