Reference number

DC/25/2160

Date of decision

What was the original application type?

Householder planning permission

For the purpose of calculating fees, which of the following best describes the original development type?

- ☒ **Householder development:** Development to an existing dwelling-house or development within its curtilage
- ☐ **Other:** Anything not covered by the above category

Non-Material Amendment(s) Sought

Please describe the non-material amendment(s) you are seeking to make

Ancillary Annexe: A change in the external wall material from black cladding to an off-white render finish.
Main Dwelling Dormers: A change in the dormer cheeks from timber cladding to an off-white render finish.
Rainwater Goods, Windows & Architectural Trim: Shifting from the previously indicated black/white palette to a unified, modern light grey/brown finish for the soffits, fascias, guttering, window frames, and doors

Please state why you wish to make this amendment

The client’s objective is to achieve a more cohesive, visually unified, and durable aesthetic across the site. Substituting the varied cladding materials with a high-quality off-white render provides a clean, contemporary finish that unifies the main dwelling and its ancillary outbuilding seamlessly. Furthermore, the selection of premium light grey/brown finishes for the architectural trims, windows, and rainwater goods ensures a softer integration into the rural landscape compared to stark black or standard white plastic options.
