Discharge of condition 33 Regulatory Condition – Noise Control - Resubmission

Following the refusal of discharge of condition issued on 11 September 2026, a resubmission application has been prepared. The key difference between the refused submission and the current proposals is that no music amplification is proposed from the sound system to be used at sports events at the new athletic facilities granted under the above consent.

It is reiterated that up to 12 such events will be held in any one calendar year and are part of the Community Use Agreement for the site.

The following details are submitted to discharge the above condition to be discharged before any amplified speakers are used on the site.

The content of the report covers all the clauses I to v of Condition 33.

If you have any queries do not hesitate to contact me.

Yours sincerely
