Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Highway Access and Parking - Overdevelopment - Trees and Landscaping
Comments:	this application will cause the loss of a green field site - when the IPC neighbourhood plan has already identified several much more suitable sites.

field constantly floods in winter/spring and developing this with tarmac and houses will exacerbate the issue further down stream for residents already suffering from inadequate storm water drainage and sewerage systems.
insufficient public transport is already in place
development wont provide ample parking for residents or vistors and this will spill out onto adjoining roads
detrmental effect to the local wildlife with proposed removal of hedgerows vital for the ecosystem

Kind regards
