Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Highway Access and Parking - Loss of General Amenity - Overdevelopment - Trees and Landscaping
Comments:	The proposal does not constitute sustainable development for the followings reasons:

1. Travel to and from the village is dependent upon use of a car, due to the lack of adequate public transport or safe walking/cycling routes and lack of amenities delivered by the community.
2. The removal of the hedges would result in significant harm to green infrastructure and biodiversity
3. The construction of a road abutting the ancient woodland poses significant foreseeable harm to this important feature and would lead to it insidious degradation
4. The associated construction traffic would adversely affect two vital businesses, due to lack of parking.
5. It would result in a loss of character of the area. It would constitute overdeveloped, negatively affecting walks along neighbouring bridleways

Kind regards
