

The use of the field for dog walking is and would be very controlled

As advised in my email of 29 May

Its use is by appointment only, and restricted to one user at a time

The normal hours of operation are 8 am to 6 pm

So in response to all the points raised by EH

hours of use;	8 am to 6 pm
maximum number of users at a time;	One
maximum ratio of dogs to humans;	2
whether it is available to commercial dog walkers or trainers;	No
how waste will be managed;	There will be no waste
how users will be supervised;	Access is by locked gate with access code
complaints procedure;	Complaints will be handled by Doodley Dogs whose contact details are provided on site
refusal policy for users (how bookings are controlled and how banned users are assessed and prohibited from making future bookings).	Banned users will be refused bookings and the access code will be changed

This department needs to be able to assess whether there will be a noise impact to local residents, therefore all information regarding how this is managed and supervised is required in order to help us assess the potential risk.

The site has been used for this purpose for about 8 years and there have been no complaints to Doodley Dogs in that time, and as there will be no change to the arrangements currently in place there are unlikely to be any other complaints.

I would advise that this use ensures that there is on site presence which reduces considerably the risk of other unlawful activities such as motor bike scrambling, flytipping, camping

It is not clear whether Doodley Dogs will be the exclusive user of this field, or whether they will merely be managing bookings.

Doodley Dogs will be the exclusive user
