# Overview

**Arezzo Space Saving Combined Two-In-One Wash Basin + Rimless Toilet**

Do your bit for the environment with the compact Arezzo Two In One Basin and Rimless Toilet. This ingenious toilet and basin combination unit projects 62mm and is a smart way to enhance the feeling of space in even the smallest of rooms. As it uses water from the ceramic sink to fill the cistern, you'll save on water too. The modern design is easy to clean and its curvy shape hides all the pipework for a sleek look. The soft close D-shaped wrapover toilet seat just needs a gentle push to close. Its rimless design, with no hidden areas for germs to linger, makes it a more hygienic choice. Tap and waste not included.
