Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Privacy Light and Noise
Comments:	Design: Front elevation - it is proposed that a bathtub will be placed in one of the dormer window areas, thus requiring frosted glass for privacy. This would be out of keeping with the Georgian window panes on the front elevations of all 29 houses in this small rural estate; further it would be more "fitting" if Georgian window panes, not plate glass or frosted, were inserted into the two high-

level shallow windows proposed on the side elevation of the lounge.
Privacy Light and Noise: The size of the garage will be doubled in length enabling workshop space for motorbike repair and renovation, in addition to maintenance of existing motorbikes. This could have the potential to become a commercial operation if permitted without constraints of some sort. This would add to the current noise and fumes in what is a quiet residential area.

Kind regards
