Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking - Loss of General Amenity - Trees and Landscaping
Comments:	This will ruin the natural landscape and environment. We should be protecting our greenfield sites and working with nature to fight climate change and protect natural habitats for all sorts of flora and fauna and people to enjoy. We are one of the most nature depleted countries in the world. We don't seem to be learning any lessons from our past mistakes. We do not need to add to congestion, pollution, carbon footprint and further environmental

impacts in the area if this development is allowed to go ahead. I strongly reject this and we should be encouraging land owners to create green places /spaces where the public can go not more tarmac and bricks in an area which borders the high Weald. Think Knepp!! Building this development will cause significant damage to an area already suffering from intensive human farming etc. another concern is flooding. Build on brownfield not greenfield. There are already so many developments in Horsham. Protect our green countryside.

Kind regards
