Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Loss of General Amenity - Overdevelopment
Comments:	Southern Water's latest proposal would see additional sewage transferred to the already overloaded Barns Green Wastewater Treatment Works following the closure of the Itchingfield facility. BG WTW is already an environmental and public infrastructure disaster. It will not be able to cope. Capacity and infrastructure are

not fit for purpose. More development is absolutely not tenable, on this factor alone, among others.

The new information should be fully assessed before any planning decision is made.

I urge Horsham District Council to refuse the application or delay any decision until these concerns have been properly investigated, and capacity increased to serve actual and projected development needs.

Kind regards
