Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Other
Comments:	There are several properties in the 'Penlands' area of Steyning with linked garages. They are all of a uniform height. To extend the height on one side of the linked garages will not be in keeping with the design of the area. The heightened rear will also overshadow the adjoining garden from my property. The outlook from our garden will now change to a view of a brick wall not in keeping with the green space we live in. Noting that the elevation from our property is higher on our side as our property sits lower than number 20 Ingram Road.

I also note the rear extension creates a new party wall which we do not agree to. We would ask that any agreed extensions are built wholly within the boundaries of number 20 Ingram Road.

Kind regards
