HOW THE LAYOUT FITS

Room and deck sizes are unchanged. Deck and changing rooms move 0.8 m inward, leaving a 1.2 m left passage. The sauna fence step reaches the outer boundary; it does not extend beyond it.

23 m length allows 10.5 m before the deck, then 7 m deck, 2.5 m sauna zone and 3 m changing-room zone.

The 9.3 m sketch dimension is retained. The remaining 1.2 m is at the angled corner. Corner return width is indicative.

Gate/fence positions are proposed. Pool symbols are indicative; individual pool sizes remain to be confirmed. North must be verified against the site.
