Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking - Other
Comments:	I have no objection to the applicant starting this type of business from her home address, but i do object to the unreasonable hours of business. A 7am start and a 8.30pm finish Monday to Friday and Saturday morning(as quoted by the applicant in the application), I feel is unreasonable in a residential private road. Furze View is a single track lane where we use neighbours driveways as passing places. There is one passing place beyond this property so is irrelevant. From the application using the information provided this business

will provide a number of extra cars 5.5 days per week, although this is unclear on precise numbers, if this business is a success then the numbers will increase. This could add an additional 1000+ vehicles using the lane per year.

I also see from the document submitted on the 9th March this service is mainly for neurodiverse children, for these children an appointment at 7am would be extremely difficult.

I strongly support services to help neurodiverse children and perhaps a rethink on the time of start and finish of the clinic would be possible. This would help to reduce traffic on the single track lane at the busiest time of day.

Kind regards
