I object to the above plan for the demolition of existing dwelling and erection of 24 dwellings including the creation of a new access from Sandygate Lane.

Another access into Sandygate Lane at this point would be very dangerous, as there are already 3 from other housing estates within about 20 yards.

Our village has no shop, medical facilities, and the bus service is not good. The service between Brighton and Horsham is hourly, to Haywards Heath it is intermittent, and non existent to Handcross. There is a school , which is full, and we have a pub and a church. For these reasons there will be more cars and other traffic on an already very busy road.
