

PLANNING STATEMENT

STORRINGTON LTC – REPLACE TENNIS COURTS 8 & 9 WITH TWO PADEL COURTS VARIATION TO CONDITION 1 ADDITION OF NOISE MITIGATION WALL

PREVIOUS PLANNING APPROVAL AND NOISE CONSULTANT APPOINTMENT

The proposal to replace two tennis courts with two padel courts has been approved under planning reference DC/25/1362. The approval notice did not contain any noise restrictions. The club are mindful that neighbour amenity and in particular noise can be a problem for padel installations and so appointed a noise consultant, May Walters, to review the approved scheme and look at several alternative locations and layouts within the club and make recommendations.

MAY WALTERS SUMMARY FINDINGS AND RECOMMENDATIONS

The consultant refined the assessment to two options: the previously approved scheme and one other. However, in the end the consultant concluded that the current approved option was the best solution given that a noise mitigation wall was required for both options.

MAY WALTERS ACOUSTIC REPORT

A full copy of the acoustic report and recommendations is included in the planning documents that have been submitted with this application.
