Stance:	Customer objects to the Planning Application
Reasons for comment:	- Overdevelopment
Comments:	Southwater is already bursting at the seams with new houses. Our roads are not fit for purpose. The increased traffic would cause further issues. There would be a huge detrimental impact on the surrounding environment and animals. There is so much flooding and the more trees and green space that is destroyed with impact this further. The water has nowhere to go Our children do not have enough sufficient resources available, and when it comes to secondary schools children are being sent far away when they should be in local schools but there is not enough space because so many houses are being built.

Southwater has had more than its fair share of new housing and this village cannot take anymore. Leave the countryside to be exactly that. We all moved here because we wanted a village life and to be surrounded by countryside and it is being destroyed with every new development.

Kind regards
