Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	Please accept this letter as support for Planning permission DC/26/0222 We have lived in Furze View for over 20 years, and live 2 doors down from New April cottage. We support the idea of the owners of the property using part of their home to run a small business (Accupuncture clinic) that helps amongst others children with various ailments. To the best of my knowledge there isnt a clinic of this type in the area.

We do not believe that the slightly increased traffic due to this change of use would be noticeable on Furze view. Over the years the traffic has increased due to the amount of Home deliveries, food, parcels etc. This traffic is more of a concern as they tend to drive fast down the lane without much care.

In addition, a few houses have in the past run businesses such as home hairdressing, computer services and those didn't create noticeably more traffic and have since ceased, so a new business now would likely only replace those that have ceased.

New April cottage has plenty of space at the front for parking, which is off the lane, so won't create parking issues.

We should be encouraging small businesses like this and they can't initially support the increasing costs of commercial premises.

Kind regards
