Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking - Overdevelopment
Comments:	I am concerned about the amount of traffic currently moving through the village of Barns Green, this development would significantly increase this which the road infrastructure cannot support. I am also concerned that this represents an overdevelopment of a

rural village which already struggles to sustain adequate services, and would place a significant strain on the drainage, sewage and water systems which are at capacity.

Additionally, there are inadequate bus services through the village now. The extra cars and vans this development would bring would impact traffic volume and emissions and the environment.

Kind regards
