Hi Shazia

I normally do the consultations for planning regarding waste & recycling collections....however, I have not been aware of this one.

Currently, our refuse truck will stop outside each dwelling on the A281 to collect refuse, recycling & food waste.

If this application is approved, we would adopt the same practice for the gypsy site. They would be required to present their bins at the roadside for collection. Each plot would require x1 140L refuse, x1 240L recycling. Food waste is optional, if the residents would like to recycle food waste, this is a provision we can look at supplying.

We would not enter the site to service the bins and looking at the proposed block plan (Please see attached) even if it was considered a viable option to drive into the site, we could not turn our refuse vehicle around to exit.

Looking at some of the objection statements on the planning site, it seems as though the majority of the objections I saw relate to a build of refuse being burnt and fly-tipping. As this is undoubtable private land, we wouldn't be able to intervene.

Any and all domestic refuse collections we provide must be within a wheeled receptacle to be collected.

I hope the above helps.

Kind regards

Josh Ives

Hi Josh,

Is this something you can deal with?

Thanks,

Genna

Dear Genna,

I hope you are well.

I am not sure whether you are the correct contact, but I am getting in touch regarding a planning application I am currently overseeing, which has attracted a number of objections.

We have received comments from neighbouring residents raising concerns about refuse collection along this section of the A281. WSHA have suggested that I seek input from your team in relation to these matters.

In particular, given the points raised in the recent submission regarding waste collection, I would be grateful if your Waste Team could advise on how refuse is currently collected from neighbouring properties in this area, and whether the proposed arrangements for this site would be considered acceptable.

Any comments you are able to provide would be greatly appreciated in helping to inform the assessment of the application.

The site address is as follows:

Cotlands Paddock
Horsham Road
Cowfold
West Sussex
RH13 8AH

I have attached a map and highlighted in green the entrance to the site.

Kind regards,

Shazia Penne
