Hello Sam

Here,are our proposals against FAIRFAX DEVELOPMENT reapplying (again), to build q30 homes and into.our Allotments behind Sycamore Ave

As a member of KOGS, we shall fight this development after succeeding twice before to stop this building of these homes

We are in an area of Outstanding Beauty, with woodland on our doorstep which is protected for wildlife, floral and species

There is NO infrastructure ie water etc for this proposal to go ahead

We are Dog walkers, Ramblers, our Children walk in these woods to appreciate the countryside
We have lived looking out on these beautiful areas for the past 40 years and would not wish to live anywhere else, we manage and work in the Allotment areas behind our house to.provide Food for us, our Families and Neighbours

The whole of West Sussex seems to be going under concrete now and we shall fight to stop this the KOGS group are already up and running

Regards,
