Reasons for comment:	- Other
Comments:	At 20 metres high, this structure would be significantly taller than any of the surrounding buildings and would have a major visual impact on our neighbourhood. Such a prominent installation will be unsightly, out of character, and detrimental to the look and feel

of our community.

I understand the importance of connectivity, but infrastructure should be positioned and designed in a way that respects the character and scale of the area we live in.

In any event there is already a mobile tower/cabinet installation less than 200m down the road next to the business Park. If this additional structure must go ahead then at least keep it next to the existing infrastructure as this would be more appropriate.

Kind regards
