Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Loss of General Amenity - Overdevelopment - Privacy Light and Noise - Trees and Landscaping
Comments:	Housing in this area will be detrimental to the environment and beauty of this area, creating a blight in a green area important to nearby residents and flora and fauna alike. There will also be significant impact on local services and schools, which are already under deep strain. Access to health and dental

services in the area is almost impossible.

Finally the housing development will overlook existing housing neutering privacy and the building and development of the site will be horrendous for those living nearby.

This is a totally unacceptable development that has been already rejected in different forms multiple times for good reasons from local residents such as myself. I explore you to reject this development to keep this area a pleasant one to live in. Thank you.

Kind regards
