Reasons for comment:	- Other
Comments:	I have been working on the property during renovations and I have witnessed first hand how much traffic the area has, especially for such a small Village. The residents currently park across the street from the property along with other local residents and this ends up restricting traffic flow to one lane on a blind bend which leads to even more traffic build up. I believe that this drive space would go a long way in helping traffic flow smoothly through slinfold as well as reduce the risk of collisions on the blind bend. The reduction of risk for crashes being the main concern considering this property is very close to a primary school and church which regularly recieve high traffic.

Kind regards
