Re:

Unit 8

Baileys Farm

Brooks Green Road

Coolham

West Sussex RH13 8GR

We will be installing a covered modular cycle shelter which is modular, expandable and long lasting.

The intention subject to approval is to install a Procity unit. The details are:

Procity's Modular Bike Shelter: A Customisable Storage Solution. Simplicity is nearly always best and with this great value product it can't fail to impress, especially as it is backed by a 10 Year Warranty. Designed for effortless scalability, this modular system lets you build exactly the capacity you need. Each 2.4m module provides secure parking for up to 6 bicycles.

Key Features:

- **Modular Scalability:** Unlimited expansion potential— simply add 2.4m extensions to meet your specific site requirements.
- **Premium Durability:** Robust Ø 50mm anodised aluminium frame with die-cast connectors and stainless steel fixings.
- **High-Performance Roofing:** 10mm anti-UV-treated cellular polycarbonate panels protect bikes from weather and sun damage.
- **Direct Installation:** Designed to be concreted directly into the ground for permanent, high-stability use.

This will be installed Adjacent to the new unit to the E of unit 8 next to the car parking bays. See plan below
