Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	SLTC is a good neighbour and should be commended for producing the noise mediation proposal and acoustic report. Should this have been included with the original submission? It clearly shows a doubling on average of the noise from the club site and a big increase in frequency and "gunshot like" impact noise cf tennis. (look for Internet Search: Padel Noise, e.g. Harrogate CC). Padel courts will be popular and high occupancy

will be expected. The prevailing wind from S/SW and the elevated position of the courts will carry the Padel noise and vocal noise to all neighbours. Could additional noise mitigation be applied to the north of the courts as well as East.

When and if the courts are built and operating a follow up acoustic report should be produced (with neighbourhood residents survey) to validate the findings of the current report and conclusions and understand the actual impact on the neighbourhood.

Kind regards
