[redacted]

Further to the receipt of your letter of today 26th June 2025 we address the points raised and add further information in support of the application;

The supporting statement advises the application relates to one oak tree ,

Its existing height is 9.5 mts

The spread of the 3 limbs identified are 5 metres ,these the application request are removed

The tree on the recommendation of Mr. Simon Parsons who has inspected the tree is to be reduced by 3 meters to create a balanced tree.-this the application details at length.

Virtually identical work was granted in 2016 which again the application refers to, these works were supported at the time by Mr Will Jones .

We trust the information provided will now enable the application to be validated—an inspection of can be advised of and agreed, if necessary, the tree will be carried out we assume and any suggested alterations /correction to the work applied for can be advised and agreed with the tree officer in conjunction with Simon Parsons who is advising the applicant.

Regards,

Keith Potts
