Reasons for comment:	- Trees and Landscaping
Comments:	Replacing this roof with a solid material, as I understand is the plan, will mean the loss of all the trees and plants in this area - including mature maple trees, acacia trees, a giant banana etc. Leonardslee have already removed the pond from this space, a spot where great crested newts were discovered several years ago. Leonardslee have form for killing trees, shrubs and other plants in the nearby car park and in the new play ground and their disregard for the grade 1 listed garden is astounding.

Kind regards
