

Non-material amendment to commenced permission DC/14/1984 to remove garage velux rooflights on east elevation

The application is for a non-material amendment to the lawfully commenced permission DC/14/1984 of which foundations were placed to commence the building works within the 3-year time period to keep the permission live. The removal of the velux rooflights is requested as they are no longer required on the garage building.

With kind regards,

Oaker Planning
