Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Loss of General Amenity - Other
Comments:	Whilst I accept the technology proposed could be of use, this is ultimately an opportunity to sell advertising space and I would like to register significant concerns about the location proposed. We established some time ago that sight lines in West Street were important and considerable effort and money was spent removing obstacles at the time. The proposal clearly introduces a major interference with sight lines both east and west along West Street resulting in retail units being obscured. The new Specsavers at the top of Worthing Road is severely affected as can be seen on the visuals submitted.

This is likely to have a negative impact on turnover and footfall at a time when many retail operators are struggling.

Personally I would have thought a better place to locate this would be at the top of Worthing Road where the street is wider and the prime shopping area of West Street would be unaffected.

As such I would urge you to refuse the application as submitted and encourage the operator to look at alternative locations.

Kind regards
