Subject: RE: DC/24/1649

Good morning
My address is 8 St Gabriel's Road and as I've stated I'm bringing to your attention the error that Billingshurst Parish Council have given completely incorrect information concerning the planning and therefor should be discounted when deciding the verdict.
Many thanks

Re: DC/24/1649 Felling of 1 Oak

Good morning I am writing in relation to the above planning application as I have a personal interest due to a subsidence claim on my property which directly relates to this application which has been submitted by my insurance company.

On Tuesday 5/11/24 Billingshurst Parish Council had their live streamed planning meeting which included the above mentioned planning application. The chairman proceeded to discuss the case with completely inaccurate information stating the following:- monetously and frequently this person who wishes to develop on this piece of green land in middle of circular cul-d-sac wants to put a house or 2 semi detached houses with sweetener of a children's play area which we strongly object to. The recording of the live meeting can be obtained from their FB page and the discussion is around the 52 minute point . There was an additional 7 councillors and a Parish Clerk who all happily went along with this which makes me believe that not a single person present had bothered to read any of the information! Very embarrassing too as the so called piece of land is also owned by the Parish council so to have such a lack of basic knowledge is incredibly unprofessional and resulting in a vote which should be immediately discounted.

I have had previous discussions with you Andrew and would welcome an unbiased view on this application. [redacted]

Many thanks
