Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Overdevelopment
Comments:	I don't feel this development benefits the village, I live on one of the only access to this development, additional 300+ cars will make the road unsafe with young families and the extra pollution and that's after all the construction vehicles have to tried to make their way up and down these two roads. Also I have young family and with this development it put my children's places in the local school at risk, what affects will this development have on the infrastructure of the village such as gas, water waste will it just turn into a mess like Lancing where they just built houses for the sake of building and then have to lower the prices as people can't afford them! This development brings nothing to the village apart from more pollution and will ruin this lovely village.

Kind regards
