Horsham District Council

DELEGATED APPLICATIONS - ASSESSMENT SHEET

APPLICATION NO./ADDRESS:
NC/26/0036
Hangar 6 South Perimeter Road, Gatwick Airport, Crawley.

DESCRIPTION:
Neighbouring Authority Consultation – Consultation for the demolition of the existing Hangar 6 building, pump house and water tanks, to accommodate 530 valet car parking spaces.

PLANNING ASSESSMENT
This consultation relates to Hangar 6 located within the boundary of Gatwick Airport, to the south of the runway.

The proposal seeks the demolition of Hangar 6, pump house and water tanks and to utilise the footprint to provide 530 valet parking spaces on existing hardstanding areas to serve customers travelling through the airport. Though the proposal would result in additional parking capacity at Gatwick Airport it is stated that this is not anticipated to result in materially different traffic movements from those already associated with airport operations, as the proposal forms part of the airport's wider parking strategy. The proposed spaces would not result in a level of on-site parking provision above the maximum cap of 53,260 parking spaces secured and accounted for through the Northern Runway DCO.

Given the above, where Crawley Borough Council Officers are satisfied that the works fall within the stated permitted development rights (Class F of Part 8 of Schedule 2 of the Town and Country Planning (General Permitted Development) (England) Order 2015), Horsham District Council have no comment to make.
