Dear Sir/Madam,

Proposal: Construction of a replacement dwelling.
Site: DC/24/0689: - Strood Park Farmhouse, Strood Lane, Warnham, West Sussex, RH12 3PF.

Thank you for your letter dated 7 May 2024.

Following the review of the submitted documents, we have the below comments for the Planning consultation.

Foul and Surface Water Drainage

There are no public foul and surface water sewers in the area to serve this development. The applicant is advised to examine alternative means of foul and surface water disposal.

It is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its ownership before any further works commence on site.

Southern Water has noted that the applicant has submitted a Water Neutrality report which we understand the Local Planning Authority will be working in conjunction with Natural England on reviewing the developers proposals. We would not comment on the developers proposals directly, however if the LPA have any specific questions, they can be forwarded to us for a direct response.
