Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking
Comments:	I am deeply concerned about the road traffic impact this planning application will have on the area surrounding Heron Way school. In current conditions, the road traffic around Heron way school at drop-off and pick up is highly congested. It's not just related to moving vehicles, but also stationary ones by the side of the road, reducing visibility for drivers and pedestrians. I know that in many cases road traffic changes are made on the basis of risk assessment, but we're talking about the safety of

young children here - one accident is too many! For my objection to this planning application to be removed, I would need to see evidence of plans and committed investment to improving safe traffic flow and crossing opportunities for young children around Heron Way. I do realise that Hornbrook farm is within walking distance of Heron Way, but that is only based on a calculation by someone at a desk. Busy parents, on a rainy day, will be driving, which will introduce new vehicles and more pedestrians into an already congested traffic area with existing crossing hazards.

Kind regards
