

The key focus of the office park masterplan is to establish a high quality landscape environment for the collection of commercial buildings, whilst introducing appropriate scale and massing that complements the space, ensuring the massing doesn't overshadow the space whilst allowing the functionality and use of the outdoor space throughout the day.

1 - Arrival Space 01 in front of Building D

2 - Arrival Space in front of Building C

3 - Arrival Space 02 between Buildings G,H and I.

Business Park masterplan showing central amenity space, arrivals and cycle hubs

Left column: Illustrative image showing the provision of shared space that creates a strong sense of arrival to the south of the masterplan. These two spaces are introduced at either end of the landscape 'heart space' forming key arrival points for visitors, staff, deliveries and cyclists for buildings D, E, F, G, H and I
