Dear Sir/Madam,

Proposal: Erection of 1No. new dwelling with associated parking.
Site: DC/24/0503: - 10 Mallard Close, Horsham, West Sussex, RH12 2NB.

Thank you for your letter dated 12 April 2024.

Following the review of the submitted documents, we have the below comments for the Planning consultation.

Foul and Surface Water Drainage

Southern Water requires a formal application for a connection to the public foul sewer to be made by the applicant or developer.

To make an application visit Southern Water's Get Connected service: developerservices.southernwater.co.uk and please read our New Connections Charging Arrangements documents which are available on our website via the following link: southernwater.co.uk/developing-building/connection-charging-arrangements

The Council's technical staff and the relevant authority for land drainage consent should comment on the adequacy of the proposals to discharge surface water to the local watercourse.

It is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its ownership before any further works commence on site.

Southern Water has noted that the applicant has submitted a Water Neutrality report which we understand the Local Planning Authority will be working in conjunction with Natural England on reviewing the developers proposals. We would not comment on the developers proposals directly, however if the LPA have any specific questions, they can be forwarded to us for a direct response.
