Good Afternoon,

[redacted]

We have been made aware of the following planning application: Dc/24/0121 for the installation of an illuminated free-standing sign at approx. 5m high.

Our neighbours have received a letter on this but we have not and have been unable to add anything online.

Therefore via email we would like to formally object to this application on the basis below:

The light pollution will negatively impact the local residents, including ourselves and our neighbour's bedrooms overlooks this.

The sign is wholly unnecessary. There is no requirement for a local agricultural shop to have a large, illuminated sign. There is already sufficient signage for this business.

A large illuminated sign will divert driver attention away from the already concealed entrance to the Clemsfold cottages and newly converted barns.

Clemsfold is a small country hamlet and this sign is in no way in keeping of the ritual character of the area.
