Subject: Re: DC/25/0450 OBJECTION AND FORMAL COMPLAINT ABOUT THE SITE'S CONTINUED USE AS "SECURE"
DOG EXERCISE FIELDS - REQUIRES IMMEDIATE ACTION

Dear Halima,

I attach additional photos to those presented in my objection and complaint letter dated 1 Feb 2026 - partly so that the timestamps in the filenames are preserved.

This includes showing the field being used at 0741 yesterday morning - contrary to the opening hours stated in the 'Noise Management Plan'.

Others show the height of the stock fencing next to the main entrance, group use (going up the footpath prior to entering the western field, and multiple occasions when more than one car has been in the field. Environmental Health have also received audio recordings as part of previous noise complaints. I would be happy to send you these if they would add to the evidence you require to demonstrate that the site does not conform to NPPF requirements.

They all demonstrate that the site is not managed in accordance with the plan presented by the applicant. Please confirm receipt and confirmation that the objection letter / complaint has been forwarded to the HDC Licensing and Environmental Health departments.

Kind regards,

[REDACTED]
