Reasons for comment:	
Comments:	I am writing to express my full support for the above planning application. After reviewing all the relevant documents available on the planning portal, I am impressed by the thoroughness of the proposal and its adherence to local policies. In particular, I commend the applicant's commitment to Horsham District Council's water neutrality policy. I fully support this policy, and I am pleased to see how the applicant has taken an innovative approach to successfully achieve water neutrality

through the use of offsetting measures. This proactive approach sets a strong example for sustainable development within the region.

Moreover, the proposed lodges, as depicted in the CGI visuals and landscape plans, are highly impressive. Their design and scale are sympathetic to the natural surroundings and would enhance, rather than detract from, the local environment. I believe the development would make a positive contribution to the area.

For these reasons, I hope the council will look favourably upon this application.

Kind regards
