To whom it may concern,

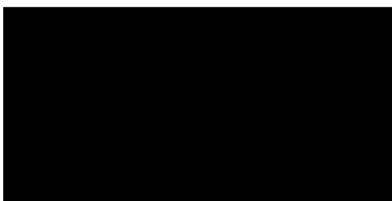

**RE: FORMER THAKEHAM MUSHROOM SITE – NOISE ASSESSMENT**

A noise assessment was previously undertaken by Cass Allen to investigate existing noise levels at the Former Thakeham Mushroom Site. The findings were submitted within the report referenced RP01-23295-R6, dated 12 February 2026.

We have reviewed the extension to the site boundary, as shown on the drawing *P24-2268\_DE\_010\_C\_002 Site Location Plan*, in the context of the existing noise assessment. Based on this review, we confirm that the inclusion of the additional land does not affect the assessment findings or alter its conclusions.

Accordingly, the existing Noise Assessment remains valid for the revised site boundary, and there is no requirement to undertake a further or updated noise assessment.

Yours sincerely,

**Christian Inman, BSc, Acoustics Consultant**
