Address:	Washington Parish Council PO BOX 2286

Comments Details

Commenter Type:	Parish Council
Stance:	Customer made comments neither objecting to or supporting the Planning Application
Reasons for comment:	
Comments:	Washington Parish Council notes its previous response of no objection to application reference DC/25/1991 for development permitted at the same property. At the time the Parish Council had requested this to be subject to a condition restricting the garage from residential use. The Parish Council notes the concerns of the neighbour at "Woodedge" about the current proposals and that, together with the approved development, would affect the privacy and amenity of their property. The Parish Council finds no reason to support

this view and has agreed to make no objection to the application, while reiterating its request made for the previous application to restrict the garage from residential use. The Parish Council requests that the neighbouring resident's comments be taken into account when determining the application, particularly regarding the proximity of the rear of the garage to the shared boundary.

Kind regards
