Moatfield Farm Kings Lane Cowfold Horsham
Conversion of 2no agricultural buildings to form 2no dwellings.

Your application DC/21/0699 has now been determined and I enclose the decision notice. The decision notice contains important information. Please take a moment to read it as further action may be required.

Conditions
Before you start work, information must be submitted for any conditions that require discharge before development can begin. The decision notice will set out what information need to be sent.

Failure to discharge conditions before commencing development could result in the development being unlawful or enforcement action being taken. You can notify us of your intention to initiate development by completing a pre-commencement notification which will help us to monitor your development. There is no fee to use this service. To do this, or for further information about discharging planning conditions, visit us online at horsham.gov.uk/planning/discharging-a-planning-condition

Community Infrastructure Levy (CIL)
If this development is CIL liable, the requirements of CIL must be met before you start work. Failure to do so could result in additional financial penalties. For further information relating to CIL visit horsham.gov.uk/planning/planning-policy/community-infrastructure-levy/cil-charges-and-how-to-pay

If you have any questions about the decision notice, you can call us and speak to a member of the team on 01403 215187 between 9AM - 5PM, Monday to Friday.

If you are acting as the planning agent for this application, please ensure that the applicant is given a copy of the decision notice and this letter.

Yours Sincerely,

Barbara Childs
Director of Place

Horsham District Council

Application Number: DC/21/0699

TOWN AND COUNTRY PLANNING ACT, 1990 (as amended)
TOWN AND COUNTRY PLANNING (Development Management Procedure) (England) Order 2015

On behalf of: T Chapman

In pursuance of their powers under the above-mentioned Act and Order, the Council hereby notify you that they PERMIT the following development, that is to say:

Conversion of 2no agricultural buildings to form 2no dwellings.

Moatfield Farm Kings Lane Cowfold Horsham

to be carried out in accordance with Application No. DC/21/0699 submitted to the Council on 18/05/2021 and subject to compliance with the plans/documents and conditions specified hereunder.

Barbara Childs
Director of Place

Date: 13/07/2021

1 **Plans Condition**: The development hereby permitted shall be carried out in accordance with the approved plans listed in the schedule below.

SCHEDULE OF PLANS/DOCUMENTS

Plan Type	Description	Drawing Number	Received Date
Location & Block plan		100_05	18.05.2021
Elevation & Floor plan	Proposed Building 2	100_04	25.03.2021
Elevation & Floor plan	Proposed Building 1	100_03	25.03.2021

Reason: For the avoidance of doubt and in the interest of proper planning.

2 **Standard Time Condition**: The development hereby permitted shall begin before the expiration of three years from the date of this permission.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990.

3 **Pre-commencement Condition**: No development shall commence until the following components of a scheme to deal with the risks associated with contamination, (including asbestos contamination), of the site be submitted to and approved, in writing, by the local planning authority:

(a) A preliminary risk assessment which has identified:
- all previous uses
- potential contaminants associated with those uses
- a conceptual model of the site indicating sources, pathways and receptors
- Potentially unacceptable risks arising from contamination at the site.

The following aspects (b) - (d) shall be dependent on the outcome of the above preliminary risk assessment (a) and may not necessarily be required.

(b) An intrusive site investigation scheme, based on (a) to provide information for a detailed risk assessment to the degree and nature of the risk posed by any contamination to all receptors that may be affected, including those off site.

(c) Full details of the remediation measures required and how they are to be undertaken based on the results of the intrusive site investigation (b) and an options appraisal.

(d) A verification plan providing details of the data that will be collected in order to demonstrate that the works set out in (c) are omplete and identifying any requirements for longer-term monitoring of pollutant linkages, maintenance and arrangements for contingency action where required.

The scheme shall be implemented as approved. Any changes to these components require the consent of the local planning authority.

Reason: As this matter is fundamental to ensure that no unacceptable risks are caused to humans, controlled waters or the wider environment during and following the development works and to ensure that any pollution is dealt with in accordance with Policies 24 and 33 of the Horsham District Planning Framework (2015).

4 **Pre-occupation Condition**: No part of the development shall be first occupied until the car parking spaces have been constructed in accordance with plans and details to be submitted to and approved in writing by the Local Planning Authority. These spaces shall thereafter be retained at all times for their designated use.

Reason: To ensure that adequate provision for car-parking is created on site and in accordance with Policy 40 and 41 of the Horsham District Planning Framework (2015).

5 **Pre-occupation Condition**: No part of the development shall be first occupied until covered and secure cycle parking spaces have been provided in accordance with plans and details to be submitted to and approved by the Local Planning Authority.

Reason: To provide alternative travel options to the use of the car in accordance with current sustainable transport policies.

6 **Pre-Occupation Condition**: No part of the development hereby permitted shall be occupied until details for the provision for the storage of refuse and recycling facilities have been submitted to and approved in writing by the Local Planning Authority. These facilities shall be provided prior to occupation (or use) of the development hereby permitted and thereafter be retained for use at all times.

Reason: To ensure the adequate provision of recycling facilities in accordance with Policy 33 of the Horsham District Planning Framework (2015).

7 **Pre-Occupation Condition**: No part of the development hereby permitted shall be first occupied until full details of all hard and soft landscaping works shall have been submitted to and approved, in writing, by the Local Planning Authority. The details shall include plans and measures addressing the following:

- Details of all existing trees and planting to be retained
- Details of all proposed trees and planting
- Details of all hard surfacing materials and finishes
- Details of all boundary treatments

The approved landscaping scheme shall be fully implemented in accordance with the approved details within the first planting season following the first occupation of any part of the development. Unless otherwise agreed as part of the approved landscaping, no trees or hedges on the site shall be wilfully damaged or uprooted, felled/removed, topped or lopped without the previous written consent of the Local Planning Authority until 5 years after completion of the development. Any proposed or retained planting, which within a period of 5 years, dies, is removed, or becomes seriously damaged or diseased shall be replaced in the next planting season with others of similar size and species unless the Local Planning Authority gives written consent to any variation.

Reason: To ensure a satisfactory development that is sympathetic to the landscape and townscape character and built form of the surroundings, and in the interests of visual amenity in accordance with Policy 33 of the Horsham District Planning Framework (2015).

8 **Pre-Occupation Condition**: No part of the development hereby permitted shall be occupied until a fast charge electric vehicle charging point for that dwelling has been installed. As a minimum, the charge point specification shall be 7kW mode 3 with type 2 connector. The means for charging electric vehicles shall be thereafter retained as such.

Reason: To mitigate the impact of the development on air quality within the District and to sustain compliance with and contribute towards EU limit values or national objectives for pollutants in accordance with Policies 24 & 41 of the Horsham District Planning Framework (2015).

9 **Pre-Occupation Condition**: No part of the development hereby permitted shall be occupied until the necessary in-building physical infrastructure and external site-wide infrastructure to enable superfast broadband speeds of 30 megabytes per second through full fibre broadband connection has been provided to the premises.

Reason: To ensure a sustainable development that meets the needs of future occupiers in accordance with Policy 37 of the Horsham District Planning Framework (2015).

10 **Pre-occupation Condition**: No part of the development shall be first occupied until there has been submitted to the Local Planning Authority verification that the remediation scheme

required and approved under the provisions of condition 2(c) has been implemented fully in accordance with the approved details (unless varied with the written agreement of the Local Planning Authority in advance of implementation). Thereafter the scheme shall be monitored and maintained in accordance with the scheme approved under condition 2(c), unless otherwise agreed in writing by the Local Planning Authority.

Reason: As this matter is fundamental to ensure that no unacceptable risks are caused to humans, controlled waters or the wider environment during and following the development works and to ensure that any pollution is dealt with in accordance with Policies 24 and 33 of the Horsham District Planning Framework (2015).

11 **Regulatory Condition**: The dwelling(s) hereby permitted shall meet the optional requirement of building regulation G2 to limit the water usage of each dwelling to 110 litres per person per day. The subsequently approved water limiting measures shall thereafter be retained.

Reason: To limit water use in order to improve the sustainability of the development in accordance with Policy 37 of the Horsham District Planning Framework (2015).

12 **Regulatory Condition**: Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015 (and/or any Order revoking and/or re-enacting that Order no development falling within Classes AA, A, B, C, D and E of Part 1 of Schedule 2 of the order shall be erected, constructed or placed within the curtilage(s) of the development hereby permitted without express planning consent from the Local Planning Authority first being obtained.

Reason: In the interest of visual amenity and due to the nature and constraints of the development and application site in accordance with Policy 33 of the Horsham District Planning Framework (2015).

Note to Applicant
The Applicant is advised of the following regarding the Public Right of Way-

- The granting of planning permission does not authorise obstruction of, interference to or moving of any Public Right of Way (PROW); this can only be done with the prior consent of West Sussex County Council (WSCC), as highway authority, and possibly also a legal Order process by the relevant local planning authority. Further advice can be provided on request.
- Safe and convenient public access is to be available at all times across the full width of the PROW, which may be wider than the available and used route - advice on the legal width can be provided by the WSCC PROW Team.
- The path is not to be obstructed by vehicles, plant, scaffolding or the temporary storage of materials and / or chemicals during any works. These will constitute an offence of obstruction under the Highways Act 1980.
- No new structures, such as gates and stiles, are to be installed within the width of the PROW without the prior consent of the WSCC PROW Team. These will constitute an offence of obstruction under the Highways Act 1980.
- Any down pipes or soakaways associated with the development should discharge into an existing or new drainage system and away from the surface of the PROW. No drainage system is to be installed through the surface of the path without the prior consent of the WSCC PROW Team.
- Where the ground levels adjacent to the PROW are to be raised above existing ground levels, this could increase the potential to flood the path. A suitable drainage system must be installed adjacent to the path to a specification agreed with the WSCC PROW Team prior to development commencing.

- Any alteration to or replacement of the existing boundary with the PROW, or the erection of new fence lines, must be done in consultation with the WSCC PROW Team to ensure the legal width of the path is not reduced and there is no unlawful encroachment.
- Access along a PROW by contractors' vehicles, deliveries or plant is only lawful if the applicant can prove it has a vehicular right; without this an offence under the Road Traffic Act 1988 section 34(1) is being committed.
- The applicant is advised that a public access right has precedence over a private access right. Where a PROW runs along a route also used for private access purposes, usually for private vehicle access, this shared use has the potential for accident or injury - the applicant must consider how access is managed so the public is not endangered or inconvenienced.
- Some properties have private rights over them for the benefit of a particular individual or property; for example, a landowner may have the right to drive over a neighbour's track to gain access to property. This right of access is granted to individuals and / or properties only and does not extend to the public. The WSCC PROW Team does not hold records of private rights of access; the applicant is encouraged to check that no private access rights will be detrimentally affected by this proposal.
- It is an offence to damage the surface of a PROW without the prior consent of the WSCC PROW Team. The applicant must supply a specification and secure the approval of the WSCC PROW Team before works affecting the PROW begin, even if the surface is to be improved. Where a PROW surface is damaged and there was no prior consent, the applicant will be liable and required to make good the surface to a standard satisfactory to the WSCC PROW Team.
- Where it is necessary to undertake works within the legal width of a PROW, e.g. install utilities, (or for development works immediately adjacent to a PROW that can not reasonably be managed through different Health and Safety practice) the applicant must be advised to apply to WSCC PROW Team for a temporary path closure. The applicant must be advised there is no guarantee an application will be approved; that a minimum of 6 weeks is needed to consider an application.
- Where it will be necessary to permanently divert or extinguish a path 'to enable development to take place' by means of a Public Path Order (PPO) (most often under Town & Country Planning Act 1990 s257), to be applied for by the developer through the Local Planning Authority prior to development, WSCC PROW Team is not able to grant a temporary path closure as a precursor to a PPO. In such circumstance, WSCC PROW Team will only consider an application for a temporary path closure once the Local Planning Authority has made and confirmed a PPO.
- Consented development is often subject to various environmental requirements, which can impact on the availability of PROW. For example, Great Crested Newt fencing has often been known to be laid across a PROW, which is either subject to installation of unauthorised stiles or gates, or unlawfully diverted around the site edge. The applicant must be advised that any environmental licence, such as from Natural England, does not negate the need to provide the legal line of a PROW without additional structures.
- If the development proposes shared use of a PROW with vehicles (and / or introduces a vehicle crossing point of a PROW), which may increase the risk of accident or injury to a PROW user, then the applicant is encouraged to introduce signage to advise vehicle
- drivers of the hazard and to act responsibly.

Note to Applicant – Community Infrastructure Levy (CIL):
Horsham District Council has adopted a Community Infrastructure Levy (CIL) Charging Schedule which took effect on 1st October 2017. **This development constitutes CIL liable development**.

CIL is a mandatory financial charge on development. To avoid additional financial penalties, the requirements of CIL must be managed before development is commenced (including in the event of any successful appeal).

Payment must be made in accordance with the requirements of the CIL Demand Notice issued.

Note to Applicant
Statement pursuant to Article 35 of the Town and Country Planning (Development Management Procedure) (England) Order 2015. The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received, in order to be able to, where possible, grant permission.

ADDITIONAL INFORMATION

Planning Permission – Important Provisos
If planning permission has been granted, please note that your Notice of Decision refers only to consideration of your proposal under the Town and Country Planning Acts. It is not a building regulations approval and does not mean that you can disregard other Acts of Regulations, or avoid any other legal obligations. Some of these obligations, of particular relevance to your proposal are referred to elsewhere in this note. Before you proceed with your proposal you should ensure that a Building Control application is not required, or has been submitted. The Building Control Department can be contacted on 01403 215151.

If this permission relates to new dwellings, commercial premises or other buildings which will require a new postal address you should contact the Council's Street Naming & Numbering Department as soon as possible or before work commences on site. Further details are available on the Street Naming page on the Council's website or alternatively e-mail streetnaming@horsham.gov.uk or telephone 01403 215139.

It is the responsibility of the developer to provide bins for the development. If you are a developer and need to purchase bins, please email daniel.raymond@horsham.gov.uk or phone 01403 733144.

It must be stressed that the information included on this Notice of Decision may not include all your legal obligations, and it does not grant you rights to carry out works on or over lands, or to access land that is not within your control or ownership.

Amendments
Should alterations or amendments be required to the approved plans, it will be necessary to apply either under Section 96A of the Town and Country Planning Act 1990 for non material alterations, or under Section 73 of the Act for minor material alterations. An application must be made using the standard application form and you should consult with us, to establish the correct type of application to be made.

Monitoring
Horsham District Council monitors the implementation of planning permissions. Please be aware that monitoring officers may visit the application site at various stages of the development to ensure compliance with the approved plans and conditions.

Right of Appeals
If you are aggrieved by the decision to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under Section 78 of the Town and Country Planning Act 1990.

You must appeal within 12 weeks of the date of the decision notice for a householder application or 'minor commercial' (shop front) development, and within 6 months for other types of planning applications. There are different timescale – usually 28 days – if an enforcement notice is/has been served for the same (or very similar) land and development. Please note, only the applicant possesses the right of appeal.

Appeals can be made online at: https://www.gov.uk/planning-inspectorate. If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on tel: 0303 444 5000.

The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

If you intend to submit an appeal that you would like examined by inquiry then you must notify the Local Planning Authority and Planning Inspectorate (inquiryappeals@planninginspectorate.gov.uk) at least 10 days before submitting the appeal. Further details are at https://www.gov.uk/government/collections/casework-dealt-with-by-inquiries.
