This application has been dealt with in accordance with the Development Control Scheme protocol for small scale proposals.

WSCC in its role as Local Highway Authority (LHA) has been reconsulted by the Local Planning Authority (LPA) for the above application, following the submission of amended plans and description change. The LHA previously provided comment on this application, dated 17/07/2025, raising no highway safety or capacity concerns.

From inspection of the amended plans, the changes appear minor and would not warrant further comment from a highway safety point of view. The LHA are advised to refer to the LHAs initial consultation response, dated 17/07/2025, as the comments contained within can be applied to the current set of plans.
