Subject: DC/26/0227 - Queries from Horsham Denne NC

Dear Bethan

Horsham Denne NC has been consulted on application DC/26/0227 for the proposed siting of the Shelley Memorial statue in Horsham Park and would like further information and clarification to enable us to put together our response.

- 1) Shallow step: We cannot find any information on what shape the step is, what material it will be made of and how it will be fixed to the ground.
- 2) Shading: The location of the statue is near to trees so we query if potential shading has been considered.
- 3) Orientation: It is not clear from the plans which way the front of the statue will face. On the location plan, which shows North at the top, the sides of the plinth appear to be facing NW, NE, SE and SW.
- 4) Wording: This may not be obvious to the public. Will there be any information about Shelley i.e. name, dates etc?
- 5) Access: Will there be paths across the grass to enable people to reach the statue? Or will the writing be visible from the existing paths?

We look forward to hearing from you and would appreciate an answer as soon as possible.

Regards

[REDACTED]

Clerk to Horsham Denne Neighbourhood Council
