Comments:	I would like to express my full support for the proposed new Steyning Cricket Club development. The project represents a significant investment in the local community and will provide high-quality facilities that will benefit people of all ages for many years to come. While the cricket club is, of course, an important sporting venue, it also plays a much wider role within the community. The clubhouse is a valued social hub where local people come

together throughout the year. It regularly hosts parties, celebrations, community events, and other social occasions, providing an important space for residents to meet and interact. It is also home to local groups and activities, including the pool team that I play for, giving people the opportunity to enjoy regular social interaction and build lasting friendships.

In a time when so many community spaces are disappearing, having a welcoming venue where people can meet for a drink, catch up with friends, support local teams, and feel part of the community is incredibly important. The club helps reduce social isolation, strengthens community spirit, and provides a place where people of all ages and backgrounds can come together. The proposed development will help secure the long-term future of both the cricket club and this important community venue. It will provide modern, accessible, and sustainable facilities that will continue to support local sport while preserving and enhancing the club's role as a social and community centre for Steyning.

I believe this development will have a lasting positive impact on the area, encouraging participation in sport, supporting local wellbeing, and ensuring the community has a vibrant place to gather for generations to come.

For these reasons, I strongly support the application and sincerely hope that planning permission is granted.

Kind regards
