Commenter Type:	Member of the Public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	- Design - Other
Comments:	I'm delighted to see this thoughtful planning application for a new facility to replace the existing building which is in a poor state and long overdue for replacing. The design is very much Steyning with the choice of materials and in keeping with the conservation area. This will bring improved facilities to ECB standards with inclusive spaces and representative of a successful and growing sports and community hub. As well as being aesthetically pleasing, there is a

clear and credible inclusion of green credentials including solar panels, air source heat pumps and a green roof and a carbon negative outcome. A much needed improvement for the cricket club, community and town as a whole.

Kind regards
